OPACITY

A. Transparent Image

filter: alpha(opacity=50); /* For IE8 and earlier */

Property opacity dapat mengambil nilai 0,0-1,0. Nilai yang lebih rendah sehingga membuatnya semakin transparan

B. Efek Hover Transparency

Image Transparency

The opacity property is often used together with the :hover selector to change the opacity on mouse-over:

Note: In IE, a !DOCTYPE must be added for the :hover selector to work on other elements than the a element.

```
img {
      opacity: 0.5;
      filter: alpha(opacity=50); /* For IE8 and earlier */
   img:hover {
      opacity: 1.0;
      filter: alpha(opacity=100); /* For IE8 and earlier */
C. Transparent Box
```

Property opacity sering digunakan bersama-sama dengan :hover pimilih untuk mengubah opacity pada mouse-over

Transparent Box

opacity: 0.6;

When using the opacity property to add transparency to the background of an element, all of its child elements become transparent as well. This can make the text inside a fully transparent

div { background-color: #4CAF50; padding: 10px;} div.first { opacity: 0.1; filter: alpha(opacity=10); /* For IE8 and earlier */} div.second { opacity: 0.3; filter: alpha(opacity=30); /* For IE8 and earlier */} div.third {

filter: alpha(opacity=60); /* For IE8 and earlier */}

Saat menggunakan property opacity untuk menambahkan transparan ke latar belakang elemen, semua elemen turunannya mewarisi transparan yang sama. Ini dapat membuat teks didalam lemen transparan sepenuhnya sulit dibaca D. Transparency Using RGBA

```
div.background {
background: url(klematis.jpg) repeat;
border: 2px solid black;
div.transbox {
margin: 30px;
background-color: #ffffff;
border: 1px solid black;
opacity: 0.6;
filter: alpha(opacity=60); /* For IE8 and earlier */
div.transbox p {
```

margin: 5%; font-weight: bold; color: #000000;}

Pertama, saya membuat elemen <div> (class = "background") dengan gambar latar belakang, dan perbatasan. Lalu saya buat lagi <div> (class = "transbox") di dalam <div> pertama. The <div class = "transbox"> memiliki warna latar belakang, dan perbatasan - div transparan. Di dalam <div> transparan, saya menambahkan beberapa teks di dalam elemen
